# Teacher Quest

Are you searching for a new summer professional experience that can benefit you and your students? Looking for innovative ways to spark student interest in math, science and technology? If so, Teacher Quest could be your solution!

### Teacher Quest...

- A 7-week, paid summer professional development program
- K-12 teachers work at select science and technology-based businesses in Florida
- Teachers gain industry knowledge that can be infused into their curriculum
- Teachers report a more in-depth knowledge of constantly evolving technologies and feel better equipped to instruct their students
- Students learn about career opportunities available within their communities
- Teachers may be eligible to receive in-service credit

*"The TeacherQuest Program helped me bring new knowledge into the classroom that I could not have gotten anywhere else. Being able to work directly with NASA scientists and engineers, along with the highly trained and skilled trainers from our local businesses, has been invaluable to me. It has strengthened my ability to teach my students and prepare them for better careers in the technology and scientific fields."*

~ Laura Thurman, West Melbourne Elementary School for Science

### 2007 Teacher Quest Program

**When:** June 5, 2007 through July 21, 2007 (dates may vary by location)

Earn up to \$20 hour

**Who:** K-12 teachers from any discipline, teaching in the state of Florida who possess a Florida professional teaching certificate

**Where:** Summer employment opportunities to be posted on The Endeavour Academy web site in February. You may visit [www.TheEndeavourAcademy.com/teacherquest](http://www.TheEndeavourAcademy.com/teacherquest) for job descriptions and locations.

**Where:** Apply online at [www.TheEndeavourAcademy.com/teacherquest](http://www.TheEndeavourAcademy.com/teacherquest) during the months of February and March.

Teacher Quest is an education program of Florida's Technological Research and Development Authority (TRDA) and is administered through The Endeavour Academy.

For more information, call (866) 263-9564 or visit [www.TheEndeavourAcademy.com](http://www.TheEndeavourAcademy.com)
